

A young child with curly hair, wearing a green patterned dress, is looking intently at a flower in a garden. In the background, another child in a blue shirt is visible, and a woman is holding a magnifying glass over a flower. The scene is bright and sunny, with various flowers like pink dahlias and purple lavender in bloom.

Art Week: Fun and Creativity July 6 - 8

It's time to tap into the creative side of each child. Imagine a different art project everyday! We will be using new and familiar art mediums such as: Clay, Finger paint, Water Colors and many more. Expect a craft or two at the end of this week.

Chef for a Week August 1 - 5

Our little chefs will chop, scoop, stir, measure and follow directions this week. The final result will be cooking and finally eating what they have prepared. At the end of the week, we will read and discover the meaning of "Stone Soup" while we prepare and eat our own stone soup.

Insects & Amazing Arthropods July 11 - 15

Fascinating creatures, such as, walking sticks, spiders, millipedes, scorpions and butterflies will be the curious topic of the week. The children will make their own "bug houses" and watch butterflies hatch from their cocoons. You might even want to bring a butterfly net!

Sports Week August 8 - 12

This week is dedicated to preparing for our own Summer Olympics. We will learn how the athletes once prepared for the great games in the Coliseum. Amazing Athletes will conduct the final games of our Summer Olympics on Friday. Some of our events will be: soccer, basketball, relay races and many more. Each participant will receive a medal at the end of his or her day at the games.

Under the Sea July 18 - 22

The focus of this week will be on the ocean, beach and sea-life. On Thursday, The Blue Submarine will show us the "Lifestyles of the Slimy and Squishy". If the weather permits, there will be water play in our bathing suits.

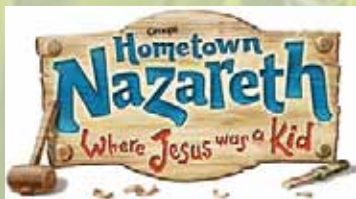

Wet & Wild Week August 15 - 19

We will have some great outdoor fun this week! Be sure to wear your bathing suits under your clothing every day. At St. Matt's Beach Club, we will have great beach activities including: water balloon toss, building sand castles, bubble making and plenty of water play days. Don't forget your towel and sunscreen!

Vacation Bible School July 25 - 29

Imagine living in the dusty town of Nazareth, just before Jesus's ministry began. You'd hear whisperings about the carpenter's kid who says he's the Son of God. You might have Jesus and his family over for dinner... let Mary's boy play tag with your kids. And perhaps, you'd secretly wonder if that child down the street could really be your Messiah...

Summer Wrap-Up August 22 - 26

Unfortunately, the time has come to end our summer fun. We'll recap our summer by having "Share Day" every day. Bring something related to your summer or vacation adventure. Our end of Summer BBQ will be held on Friday. Hot dogs, buns and condiments will be provided. Sign-up sheets for juice boxes, paper plates, veggie platters and desserts will be in the office. Look for the End of Summer bounce house outback.
